About the Host

Host Peter Tongue has been on a Spiritual Path for over thirty years. Beginning with an exploration of astrology, he quickly moved on to studies in the after-life and has since gained insight into the illusion of the veil that separates us from other realms and dimensions. He was an Educator for thirty years and High School Principal for thirteen years, during which time the Indigo children provided him with a wonderful opportunity in understanding their gifts and challenges.

Over the last four years, Peter has dedicated his life to exploring that which is beyond understanding. He assists people in crossing over as they leave this world; and facilitates individual healings from serious disease, challenges and trauma. He also guides people, who are awakening to their own innate spiritual gifts. Peter has co-created at the Alchemical furnace, which has given him tremendous insight into the process of transmutation and transformation of the human soul.

Peter has led weekly, guided visualization meditations for over twenty years and his radio career began with a public meditation for the "Fire The Grid" event. Since then he has hosted an internet radio, talk-show and provided free on-line meditations. His most recent endeavor has been in coaching heart-centered, conscious business practice to the corporate world of North America.

Peter teaches that this unprecedented time in history provides the opportunity for us to SHIFT OUR COLLECTIVE AWARENESS.

About the Show

According to the Mayan Calendar, in February 2011, we will begin the ninth and final level of consciousness in the long-count, which will herald a 260 day opportunity for us to engage in conscious co-creation with Great Spirit. We need to prepare ourselves for this very exciting and unprecedented time in the history of planet Earth.

This series of shows will lay the groundwork for you to advance your awareness sufficiently to be fully involved in this powerful process. A variety of guests will bring their expertise to explain different aspects of transformation in consciousness.

Topics will include healing through different modalities, alchemy, the Indigo and Crystal children, earth energies, working with the invisible realms, sub-conscious body/mind programming, Conscious Corporations and more.

**Awakening to Conscious Co-Creation is broadcast live Wednesdays at Noon Pacific Time on
7th Wave Network.**
